FOREWORD:

As this Second Edition goes to print, NESARA has still not been announced in the United States. NESARA,(National Economic Security and Reformation Act) www.nesara.us when it is announced, will lead to the restoration of Constitutional Law in the States, and through the ripple effect, other things may come to pass that could be difficult for many people to comprehend. This ripple effect may also have many of the world's population reeling and there may be a state of flux in world events. However, it is important to realise that there is a plan – a Divine Plan and this is the culmination of aeons of preparation and evolution.

So much truth has been withheld from the people of Earth for so long, about so many things. Now is the time for all to be revealed. The Moveon New Zealand website has been set up to be a vehicle for spreading the truth about these changes and the big picture behind them. The most important thing to remember in all of this is to choose LOVE over fear, as we have been controlled and manipulated through fear for a very long time.

THE MOVEON NEW ZEALAND WEBSITE AIMS TO:

- *Link you to stimulating information through other websites.*
- *Be a vehicle for New Zealand and Oceania Humanitarian and Environmental Projects.*
- *Provide insights into the huge changes occurring worldwide.*

MOVEON NEW ZEALAND IS DEDICATED TO:

- *Exposing the truth regarding the control and distribution of wealth, and concerning the technology withheld which can enhance our living environment, health and wellbeing.*
- *Bringing awareness and the light of truth to the people of Planet Earth.*

Through this we aim to encourage people to make more informed choices, be inspired to Moveon in more enlightened and open ways, and become consciously involved in this exciting journey.

And yet, Moveon New Zealand is more than a website. It is about more than the Humanitarian and Environmental projects.

It is a whole MOVEMENT! - not political, but SPIRITUAL! It is huge.

MOVEON NEW ZEALAND IS ABOUT:

- *Getting people sparked.*
- *People being able to know the truth about the lies, deceit and manipulation that has been going on in order that they can be controlled.*
- *Spreading the word and the awareness so that people can 'Get in Behind' Moveon New Zealand so that together, we can create a better world – a world based on spiritual values of truth and integrity and Universal Law (God's Law) as opposed to man's law. (see site link below)*

www.libertyzone.com/MKS-SOGR-Workshop.html#7laws

For too long the truth about so many things has been withheld from the general public. It is now time for those truths to be revealed. Much has been held back by those in power and control for our own so-called good, when in fact, it has been for the good of anyone *other* than us! It takes effort to change the world. The changes start with each individual and from there, the ripples spread.

It is time NOW to move into new and enlightened ways of living and being on this planet that is our home, our Mother/Gaia. The Humanitarian and Environmental projects which are outlined on the site, are all ways of instigating and promoting such changes.

The hype that we have all been fed has detracted from the quality of life and level of well-being and prosperity that we are all entitled to. It is time for this to stop.

*So what IS happening?
Moveon New Zealand explains this complex
process in this overview.*

CAPTURING THE ESSENCE

Planet Earth is a living, breathing Being and this Being is undergoing a process of immense change. She is also clearing and healing the appalling damage, through pollution, wars, and the abuse of her resources, that we humans have inflicted on her over a long period of time. Humans are Spiritual Beings, who have largely forgotten who we are and what power we have.

As Planet Earth goes through her changes, we too, have the opportunity to go through ours. As Earth makes her shift from 3rd to 5th dimensional existence by continually increasing her vibrational rate, we humans have the opportunity to shift with that energy. This will allow us to move towards becoming the multi-dimensional beings that we really are. An important aspect of this process is the change from having two strands of DNA, to the restoration of our original twelve strand DNA structure, and in many cases, even more.

Many events are occurring in the world at this point in time, which we can choose to view as catalysts that inspire us to push for change – to bring in a new level of awareness and responsibility. As more and more light fills and surrounds the planet, more of us begin to wake up to who we are, and more truths are revealed about more people and situations. And so the ripples spread.

For a long time now, humans have been controlled and manipulated by big cartels. These organisations do not have the highest interest of the greater population at heart. They wish solely

to satisfy their own desire for power and control. By withholding the truth from 'the masses' they control through ignorance and fear. The banking systems are still largely currently controlled by these cartels.

Behind the scenes, the way that money is distributed in the world is undergoing dramatic change. However, along with this comes the need for the people of this planet to demonstrate that they have the spiritual maturity, the integrity, the wisdom and the level of responsibility required, to handle the new way. There also needs to be Peace on Earth.

Moveon New Zealand is dedicated to bringing awareness and the light of truth to the people of Planet Earth. Through this we can make more informed choices, be inspired to Moveon in more enlightened and open ways, and become consciously involved in this exciting journey.

TO EXPAND ON THE ABOVE:

The Photon Belt: On the fourwinds10.com website, linked from the Moveon site under 'So what IS happening?' Patrick Bellringer has this to say "The Photon Belt is 2000 years wide in our orbit of 26,000 years around Alcyone, the Central Sun of Pleiades. Our Earth passes through it twice (*every 11,000 years*) during each Pleiadian orbit. We entered the fringe of the Photon Belt in 1962 and are now well into it.

The Photon Belt is a band of very high energy coming from the Great Central Sun. The energy increases until we reach mid-point then decreases until we leave the belt. Its' purpose is to raise our planet's frequencies high enough to assist us to

move into the fifth dimension, if we as a people are ready for 5D.

The high frequency of the Photon Belt also serves to clean the planet of all low frequencies and allow for a new civilization to be born. This time the Photon Belt is helping Mother Earth Shan to enter the 5D frequencies, because we are finally ready to do so. This launches Earth Shan and her enlightened people into the Golden Age of Peace"

The Australian website 2012.com.au linked from '[So what IS happening?](#)' has this to say. "A key truth is that there is a DIVINE PLAN. The future belongs to those that trust in the process and are willing to go with the divine plan. The main tool for understanding this plan is the Mayan calendar."

Abridged from the above site: The 2012 Philosophy covers the following points.

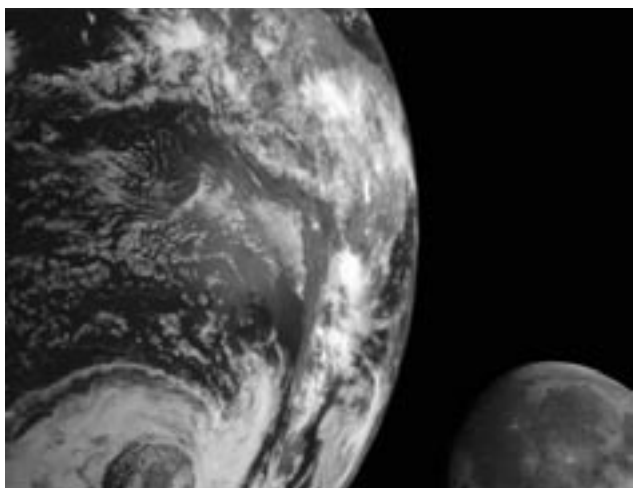

- *Humanity and Planet Earth are currently going through a huge change or shift in consciousness and reality perception.*
- *The Mayan civilization of Central America was and is the most advanced in relation to time-science knowledge. Their main calendar is the most accurate on the planet.*
- *The Mayan fifth world finished in 1987. The sixth world starts in 2012. So we are currently "between worlds". This time is called the "Apocalypse" or revealing. This means the real truth will be revealed. It is also the time for us to work through "our stuff" individually and collectively.*
- *The Mayan sixth world is actually blank. This means it is up to us, as co-creators, to start creating the new world and civilization we want now.*

THE MAYANS ALSO SAY THAT BY 2012:

- *We will have gone beyond technology as we know it.*
- *We will have gone beyond time and money.*
- *We will have entered the fifth dimension after passing through the fourth dimension*
- *Planet Earth and the Solar System will come into galactic synchronization with the rest of the Universe.*
- *Our DNA will be "upgraded" (or reprogrammed) from the centre of our galaxy. (recoding our DNA) <http://www.fourwinds10.com/>*
- *In 2012 the plane of our Solar System will line up exactly with the plane of our Galaxy, the Milky Way. This cycle has taken 26,000 years to complete.*
- *Time is actually speeding up (or collapsing). For thousands of years the Schumann Resonance or pulse (heartbeat) of Earth has been 7.83 cycles per second. However, since 1980 this resonance has been slowly rising. It is now over 12 cycles per second! This means there is the equivalent of less than 16 hours per day instead of the old 24 hours.*
- *During the Apocalypse or the time "between worlds" many people will be going through many personal changes. The changes will be many and varied. It is all part of what we came here to learn or experience. Examples of change could be- relationships coming to an end, change of residence or location, change of job or work, shift in attitude or thinking etc.*
- *Remember, in any given moment we are making*

small and large decisions. Each decision is based on LOVE or FEAR. Choose love, follow your intuition, not your intellect and follow your passion or "burning inner desire." Go with the flow.

- *Thought forms are very important and affect our everyday life. We create our reality with thought forms. So be aware of your thoughts and eliminate the unnecessary negative or judgemental ones.*
- *Be aware that most of the media is controlled by just a few. Use discernment! Look for the hidden agendas. Why is this information being presented to you? What is "their" real agenda? Is it a case of problem-reaction-"solution"? Do "they" create a problem so that "we" react and ask for a fix, then "they" offer their solution? The "solution is what "they" really wanted in the first place.*
- *Remember almost nothing happens by accident. Almost all "events" are planned by some agency or other. Despite this, it is a very exciting time to be alive!*

THE ASCENSION PROCESS:

The Ascension Process is brought about by a wave of energy and transformation which raises the vibrational frequency of all matter. There is a great deal of help from other realms at this time. We are not, nor have we ever been, alone. You can read about this on the Moveon site link to [The ascension process](#) from '[So what IS happening?](#)' and in the book 'Spiritual Growth: being Your Higher Self', by Orin, through Sanaya Roman.

DNA Changes: click on [So what IS happening?](#) on the Moveon site to read about this under [DNA changes](#) on the [Luis Prada Brother Veritus](#) site.

- *We are being changed physically from carbon-based beings with 2 strands of DNA into crystalline beings with 1,024 strands of DNA (eventually), because only crystalline substances can exist on higher dimensional levels.*
- *It is not just we humans who are changing, but all life forms on Earth are becoming crystalline. All the fish in the sea, the flowers and trees in your garden, the birds in the sky, even your pet dog or cat. Everything is changing. Nothing will die or be destroyed, for we are all moving together into a new state of being.*

This new state of being requires therefore that we physically, mentally and emotionally let go of 3rd dimensional concepts.

Just as in death, letting go is a major part of the change process, for one cannot take the old values and way of being into a new completely different afterlife, so the progression through changes compels us to let go of current relationships, jobs, careers, homes, possessions, and so on, if they are

unable to support our new way of being.

Is it any wonder therefore, that there is a great deal of anxiety and fear being felt because these changes are already in progress, even though most people are not conscious of it.

Also, the changes to our physiological makeup are currently speeding up and there are many temporary physical symptoms that are occurring in our bodies as a consequence of this, from sniffles and 'flu-like' symptoms to exhaustion and anxiety.

This process of change is known as the Awakening, or as the Ascension process. We need to transcend our fears and learn about love, real love, which has to start with the self, because:

- *Until we can love and trust ourselves, we cannot truly love or trust anything or anybody else.*

Many events are occurring in the world at this point in time, which we can choose to view as catalysts that inspire us to push for change – to bring in a new level of awareness and responsibility.

There is also more information about these changes on the Moveon site from '[So what IS happening?](#)' and under the Ascension Journey category – and from Making the New You by Sheldan Nidle linked from '[So what IS happening?](#)'

2012.com.au has another article entitled 'To the Skeptic Among Us'. From this comes the following: (abridged)

There is a purpose to life! There is a Divine Plan!

- *The positive changes to humanity are taking place regardless of any political (or otherwise) agenda. Light will prevail.*

- *There is a Divine Plan and purpose for life! After each of us has had many lifetimes, we are approaching graduation time (2012?)*
- *We do have power.*
- *We do have choice.*
- *We do have a part to play in bringing forth our better world. Each of us can continue to hold the Higher Reality in all our activities:*

To understand the current situation on Mother Earth, one needs an understanding of the big picture, which certainly is not presented through the regular mass media.

Here are some points to consider – from 2012.com.au the article 'What's Going On?' describes these changes:-

- *Everything comes from one Source. (A power of transcending forces of light and love)*
- *We, and Mother Earth are currently experiencing a special Divine Intervention. This is being supervised by the Ascended Masters (spiritual level) and the Galactic Federation (physical level).*
- *It is graduation time for us and we are all about to ascend to the new Golden Age ("1000 years of peace") (as predicted by many including the Mayan calendar).*

Probably the most difficult thing to understand during this huge shift and transformation of our reality is the balance between our free will, those who oppose, Mother Earth's ascension and God's master plan.

An example of this intricate balance was 9/11 (Twin Towers). This was allowed to go ahead as the

last major learning lesson for us all. Many of those who died in 9/11 are now working with the Divine Plan from the other side of the veil.

NESARA is only part of our spiritual shift or graduation. We have to change our whole way of thinking by 2012. Many exciting times ahead!

Who hasn't ever felt that things could be better?

Who hasn't ever dreamed of living in a better world?

What if there was/is a way that these things could come about?

What if you could be a part of this incredible journey!

What if you could help things to move on!

**"THE REAL VOYAGE OF
DISCOVERY CONSISTS NOT IN
SEEKING NEW LANDSCAPES BUT
IN HAVING NEW EYES"**

Marcel Proust (French Novelist, 1871 - 1922)

'Alchemy' a poem written by Ruth Armstrong, in 1999 depicts the journey we are on

ALCHEMY

*“What are we really here for?”
is a question I often ponder.
Today an answer comes to me
that fills me with awe and wonder.*

*You are all here to play a part in
a Divine Plan
set in place a long, long time ago before
the advent of (Hu)man.*

*In the Plan, you are to awaken to the Essence
of who you are
Light Beings, birthing a star.*

*For Planet Earth is like the Alchemist's
Crucible in which base metals
are turned to gold.*

*It is the collection point of all those cosmic
energies which are no longer useful and
are very, very old.*

*These are the energies of duality and
separation -
the movement being towards Oneness and
Integration.*

*And each and every one of you in you life journey
are 'working' a part of that old energy.*

*And as you awaken to
the Light Beings you are
becoming the transmuting fire.*

*You are not here to get caught up in this ...
rather to learn to become detached.*

*And as more and more of you do this
the planet shifts in consciousness.*

*And as this consciousness shift occurs
the heat increases in the transmuting fires.*

*And as the heat of the fires increases more
and more of you
awaken to your Essence.*

*And as more and more of you awaken to who
you are -
Light Beings birthing a Star*

*The more the planet is filled with Light
Angels, Masters and Teachers come into sight.*

*There will no longer be any darkness on
Planet Earth
all will have been transmuted*

Golden Light will infuse.

*You will see each other as the Beautiful Ones
you are
and know that you are connected to every
Creature, Being and Star.*

*You will know that you are One with all of
Creation.*

*You will see the God that is present in
Everything.*

*You will walk in Light.
Be the colours that you are.*

*And Planet Earth will transform into the
most exquisite Star.*

*Angels and Man will walk hand in hand
their Light will spread afar.*

*And Mother Earth in turn will birth
a galaxy of New Stars!!*

'The Money Masters'

from 'www.themoneymasters.com', linked from '[So what IS happening?](#)' and the Business and Finance category of the Moveon site, contains interesting information about how wealth has been controlled and withheld by a few.

The modern political power structure has its roots in the hidden manipulation and accumulation of gold and other forms of money.

The development of fractional reserve banking practices in the 17th century brought to a cunning sophistication the secret techniques initially used by goldsmiths fraudulently to accumulate wealth.

With the formation of the privately-owned Bank of England in 1694, the yoke of economic slavery to a privately-owned 'central' bank was first forced upon the backs of an entire nation, not removed but only made heavier with the passing of the three centuries to our day. Nation after nation, including America, has fallen prey to this cabal of international central bankers.

The success of the central banking scheme developed into a far-reaching plan described by President Clinton's mentor, Georgetown Professor Carroll Quigley, "to create a world system of financial control in private hands able to dominate the political system of each country and the economy of the world as a whole".

This system was to be controlled in a feudalist fashion by the central banks of the world acting in concert, by secret agreements arrived at in frequent meetings and conferences. The apex of the system was to be the Bank for International Settlements in Basel, Switzerland, a private bank owned and controlled by the world's central banks which were themselves private corporations.

Each central bank sought to dominate its government by its ability to control Treasury loans, to manipulate foreign exchanges, to influence the levels of economic activity in the country, and to influence co-operative politicians by subsequent economic rewards in the business world.

Several short-lived attempts to impose the central banking scheme on the United States were defeated by the patriotic efforts of Presidents Madison, Jefferson, Jackson, Van Buren and Lincoln. But with the passage of the Federal Reserve Act of 1913, America was firmly lashed to the same yoke, so that a small number of very rich men have been able to lay upon the masses a yoke little better than slavery itself. That yoke inevitably grows heavier with ever-compounding interest, and totals over \$20 trillion of debt owed by the American people today (\$80,000 per American) ultimately to these bankers.

Since 1885, the Rothschild family have owned the banking system and by 2004, had controlled 40 countries worldwide. There is a detailed and interesting history of this banking family on the Moveon site, linked from '[So what IS happening?](#)' and from the [Business and Finance category](#).

A Message from an Ascended Master – An Ascended Master is a being who has become 'self-realised' and serves Humanity. The Ascended Masters have worked with humanity throughout the centuries, and are still working today, in loving support.

Ascended Master, Saint Germain gives insight into NESARA, funding, and money in general in this abridged message received by Candace Freize, who is one of many people who bring through messages from the Masters. (This message is available in full on the Moveon site from '[So what IS happening?](#)' and the Messages from the Masters category).

"I actually set in motion what was needed for these times some 200 years ago. Many in Europe at that time began setting aside fortunes that continue to this day, for when the needs became apparent, and we could together bring in changes that we saw coming way back then. We knew from experience, those of us who started the banking changes, what would happen in the future.

Banking as you know it today, allows the easy circulation of money. Precious metals are difficult to use world wide as an exchange medium. Banks hold the metals, and issue easy to use currency in their place. Now you have electronic money, which is the easiest to use of all, for a world-wide society, still using money in its learning stages..

There is no real value, as many of you know, in the Federal Reserve Notes of the United States. This is a system backed by hot air, and enforced control of others, and markets. You have your war in Iraq, in part based on the fact that the Islamic countries use gold, either in coinage and/or currency backed by gold. These countries knew that the American dollar was of no real value, and began to accept payment of monies as precious metals, or currency backed by them, in payment for oil. The current Euro is backed by precious metals, and thus it has real value.

Over the last 200 years, I have worked behind the scenes, to get electronic money up and running. Well, it wasn't electronic then, the way it is now, but I did start the banking up, that has become what it is today.

In the near future, the money of all the societies of earth will be the same, and have the same value, so the game of exchange rates cannot be played. It will become more and more difficult to make money from

manipulative investments, such as the stock market as currently run and the betting that goes on, such as the futures market. Money will be made strictly from legitimate business practices.

In the United States, and many other countries around the world, that have fraudulent banking systems, and fraudulent taxation systems, the citizens of these countries will be getting some sort of refund coming over a period of time. The amount will be dependent on the countries involved inflation rates, and the length of time the fraudulent systems have been in place.

Not all has been set up yet for many countries, as NESARA was created in the United States for the United States. Other countries became interested in the idea, and several had developed plans to be implemented shortly after NESARA was to be announced in the USA last March of 2004. Since the Galactic Federation took over the implementation of NESARA late last May, it was decided to implement it over a larger area, and then by fall, to simply implement it over the entire world.

Prior to this, had NESARA been announced over a year ago, there was going to be economic and political pressures applied to resistant countries to encourage them making similar changes. Many countries in places like Africa, the other countries separated from the Soviet Union, almost all of South and Central America would have been most difficult to work with and bring into NESARA.

World peace, true peace would still be a long way off, in these small countries under dictators, that would have not co-operated, and given up power. Although the USA was going to back off and bring its troops

home, many small countries would still have warred in one way or the other.

With the Galactic Federation taking over, as all involved studied Earth, it became apparent that the best way to go would be to install it world wide, period, in a short space of time. This world is very sick, as you all well know, both its environment, and its peoples. It is not really feasible to wait, with the increased effects of the photon belt energies, and the earth changes that Mother Earth wishes to make, in the clearing of negativity from the planet. Your dollar has been terribly misused, in the creating of inflation by intent.

A number of individuals are going to receive funds, that have purposely been built over time by wealthy individuals, to be distributed to the world in general. The receivers of these funds, will redistribute them to others. This is what you have seen about the making of lists, for designated receivers.

These receivers can use their funds for a humanitarian project, and also continue the distribution to others, beyond their needs.

Understand that NESARA and the Second Coming Events do not immediately fix the world, they only set the stage. I think we shall see a very different world in a period of five years. Your star visitors will help bring peace, in a very short time, allowing you to begin your work.

Changes will vary from country to country, dependent on the local situations. But within a year, there should be a much more satisfactory flow of monies, from a variety of sources, to all the world". Saint Germain will be making public appearances.

At first you will not physically recognize him but he will very quickly engage your awareness and hearts and recognition will dawn. There are several aspects of him in human form now. In Moscow and other locations he along with the cosmic hierarchy is designing procedures and strategies that will draw your iron ore deposits to the surface. There is a great entanglement underway at present as regards your natural mineral deposits. Believe it or not that once altered in vibration you will engage your awareness on how to create space-craft using this finely heated vibration. This is all ahead for now however we just wanted to draw your attention to affairs that require your awareness.

OTHER CHANGES IN THE NEW WORLD

(from same source)

- *You are not going to need a new car every few years. Your vehicles will last practically forever. You will need to develop better means of travel than the automobile. There are a variety of options available to choose from, and could vary from country to country. It will be a while before you have teleportation available for use. There is spiritual work to be done for these technologies to become useful.*
- *The electric grid in many countries must go. You will be receiving new technology, wherein each building can have its own electricity supply, that is clean and efficient. You have a huge amount of electricity in the air, for the taking. This can be used easily, requiring no fuel to obtain it.*
- *Automobiles will need to be used for a time, until there are new techniques. You will be eventually getting rid of highways and roads, as you know them. Many will probably own hovercraft for some of the transportation requirements. You should also build communities in which many can work either from home, or nearby, so that the huge amount of time given to daily travel will be decreased.*
- *Your large grocery stores need to go away. You should have small community shops for fresh food. You should have areas in the community for growing of fresh greens. You will still import foods from other countries, but these will be shipped quite differently. With the use of "flying saucers," food can be harvested and shipped in a matter of hours, for more immediate consumption.*

- *Many of you looking for messianic missions should look into the food, and how it is supplied. If you are already working in the food area, in whatever form, stay there and bring in the new changes. Restaurants will remain important. In fact, around the world, you may need more of them, as people will travel for business, recreation and learning much more frequently.*
- *In choosing something messianic to do, we not only need help feeding the world, but need great help in bringing about all sorts of changes in every field imaginable.*
- *The planet is changing its axis. The planet's normal existence is straight up and down, not tilted.*
- *When this returns to normal totally, you will have difficulty measuring the year, in that it won't be marked by the changes of the seasons.*
- *Much of the weather changes in recent years are the result of the gradual changes in the tilt.*
- *As a result, the foods you grow will also change. The growing seasons will be much longer, in fact constant.*

Feel the energy. Feel the spirit. Feel the excitement. Follow your passions, visions and dreams to create a better world.

MY THOUGHTS ON A NEW BUSINESS PARADIGM FOR THE FUTURE

by Michael Goodhue, Moveon Founder.

Astonishing global events are taking place especially in the U.S.A leading to announcement measures to re-distribute our worlds' wealth and power. The overturning of a number of major governments is a springboard for instituting programs that will vastly change our planets' traditional economic and political procedures. Prototypes of a new way of doing business can solve many long-standing local disputes and set the stage for introducing long sought-after technologies. Those industries affected by the introduction of these technologies can easily adapt by utilizing the new business paradigm.

'Business' is to be coaxed into adopting a more humane and environmentally friendly model of operating. With the coming universal abundance, 'work' will be contributed out of inner joy, not external survival needs. The traditional business model based on hierarchy requires total re-casting. Corporations need to relinquish their restrictive, central control in favour of smaller units that are proactive to the local needs of community and environment. Communications between affiliates can swiftly convert to a simple process called 'fluid group dynamics'. In this model, the group is goal and solution oriented rather than competition and authoritarian: Those best equipped for a given project take the lead for the duration of that project alone; when the goal is reached, they release the reins to others. And so on.

This process is dependent upon a free exchange of ideas and the belief that all problems can be

creatively overcome. Each aspect of the corporation encourages its many divisions to creatively adapt to local conditions and actively honour their community and environment. The relationships between divisions, their communities, and the environment are supported. Common welfare becomes more important than profit (remember that all are now abundant).

The corporation's new focus is to use its unique skills and knowledge to heal Mother Earth and enhance the viability of the community in which it is based. In this model, society and Mother Earth are supportively intertwined, not in competition. In a context of universal abundance, "business for profit" becomes redundant, and businesses become facets of community building and restoring the environment.

The concepts we have long cherished concerning our governments, possible technologies, and the world around us are about to be stood on their heads. Thus it is important for us to stay centred and committed to positive change.

Leadership Redefined – "Leadership is authentic expression of one's inner life that creates value through collective efforts". The re-definition instead shifts the attention to the leaders inner life.

Why is it so important to focus on the inside? What is unseen and interior individually, manifests collectively as seen and exterior – strategies, leadership, culture, values, spirituality, energy level, and company performance.

The truth shall set you free!

ABOUT MOVEON NEW ZEALAND FOUNDER, MICHAEL GOODHUE:

I was born in Gisborne, the first place in the world to see the sun, and raised on a farm. My career includes international business relationships, strategic business

planning and sharing holdings in export and retail businesses in New Zealand. I am currently involved in Sponsorship Management.

Over the years I have been involved with many Multi Level Marketing schemes, which have led to an involvement with the International Money Market (promised high returns not always delivered). The consequences of this involvement led to the learning of many lessons and a deep desire to find out the truth about how money is distributed in the world. This in turn led to my following the Dove Reports about NESARA and world changes

I was married for 27 years and have recently gone through an amicable separation from my wife. From our union we created two beautiful young adults, Rebecca and James. We lived in Boston, New York and Ellensburg (WA), USA for three years, before returning to Hawke's Bay, New Zealand, in 1981.

My son James had a serious accident in 2000, which became a catalyst for my interest and learning of Traditional Chinese Medicine and Qi Gong. I became an active practitioner of Qi Gong and understand Chinese healing exercises that harness Qi - vital energy, or the life force.

Through my research on truth I read "Unveiled Mysteries" and "The Magic Presence" clearly giving me an understanding of the Ascended Master Saint Germain. These are two masterpieces that tell the story of real live people who have interacted (in the United States) with Saint Germain physically, and who have witnessed first hand the powerful, magnificent, and dazzling powers of a modern-day Ascended Master.

My interest in Holistic Health and Spirituality has evolved over the years leading me to understand the Ascension process and to develop my latest passion; Humanitarian and Environment Projects. My Aquarian sun sign motivates me to serve humanity and bring people together.

During the last 3 years, I have been pro-active in organising this web site, promoting awareness of NESARA and the ripple effects and researching Humanitarian and Environmental Projects.

As a Starseed I am passionately dedicated to bringing out the truth and informing, inspiring and involving others so that we can all move on in new and exciting ways.

The funds for these and other projects will come from the Saint Germain World Trust, distributed through Terra Nova International Trust. I have been appointed Trustee-in Trust for the Terra Nova International Trust for New Zealand and Oceania.

If you have a project that is dear to your heart that you would like to bring into reality or expand upon please contact me for further information.

Love, Peace and Prosperity to All

ROBERT "PAUL" LEBRETON *(an unabridged autobiography)*

I will begin my eternal saga & biography approximately one million years ago; on the planet Lasmur, which orbits the star Anitak, in Orion's Belt.

Lasmur was and is a 5th dimensional planet of great beauty whose capital city is named The Emerald City of Solarea. When children of Lasmur reached the age of reason, each was given, on a chain hung around the neck, a DNA coded computer access disk – accessing the great central computer of Solarea. This computer was light-years more advanced than are earth's computers, and could permit one to view, in real time, the planets and civilizations of the universes and watch the people interact, watch their media presentations, and even 'borrow' books from their libraries! So you see the children of Lasmur were given the very best in educations!

Upon Lasmur was located the seat of an organization known as The Crystal Regency of The Lasmurian Brotherhood; under the tutorage & supervision of the Ascended Master Vogoda – and I and a hundred others of my brothers worked in the Temple there – Transcribing the Solar Light Codes into the many languages of the Universes. (In the year 2000 I was teleported aboard the mothership 'The New Jerusalem' and presented, at an Award's Ceremony, the highest award given, for my work with the Solar Light Codes & Human DNA by Commander Ashtar; and Ascended Masters Sananda & Vogoda).

My long lifetime of study at Solarea's University was primarily in the disciplines of Philosophy & Education and during our Lasmurian Brotherhood's

computer tours of this Universe of Nebadon. We discovered a pretty blue marble of a planet which we now know as Earth. I made the decision to join a team of adventurers who made the decision to journey to this planet, and so became one of the Founders of the continent of Lemuria – with duties as an Anthropologist & Anthroposophist. My travels & incarnations on Earth took me to Atlantis, where I was a master of Science & Engineering, to Egypt, Asia, Europe & the Americas.

On February 16th, 1945 – during the era of World War 2 – I was incarnated into the family of Captain Edwin Louis LeBreton, Company Commander of the US Army Corps of Engineers, and Neva Lee LeBreton – of Cherokee Indian Heritage. At an early age; they taught me to read & write, and gave me all of the great books of American literature to study. I attended a Catholic Jr. High School – which polished my early education, and then was sent to a Public High School – which offered little or no further education to me – as it was simply a social club with sports activities ! I dropped out of High School in favour of a Career in Electronics with The United States Air Force, serving honourably from 1962 through 1964. Having owned my own television & radio repair business since I was 14 years old, electronics was a natural career choice! I obtained my high school GED equivalency diploma, and later studied as an un-enrolled student at several universities. In 1967, at the age of 22 – I incorporated as LeBreton & Associates, incorporated as a service & consulting firm to the electronics industry. In 1972 I formed my present company Psitronics Group Systems International; as a global R&D Firm. My passion was in the field of free energy. I designed a self-sustaining magnetic motor and worked with

anti-gravity fields & stealth cloaking technology. In 2003 a Pleiadean walk – in, Kytira Sovojek-Tubarroc related to me what she remembered of the primary energy source used on board the star ships, called a Merkabah Field Generator – and together we designed similar power supplies for earth uses, such as getting individual homes off of the electric grids. I was the co-founder of Terra Nova International Trust in 2003 with the Ascended Master Saint Germain and shall be funding humanitarian projects globally with our precious metals assets. I have ordered from my mentor, Lord Monka, 250 'Isle of Light' flying saucers – which I designed in 1996 to be built by the Martians – for Earth's Ambassadors – since the Ambassadors visiting Earth from other planets do have such craft – it was decided to provide these craft for our own "Best & Brightest" Representatives! Since 2003 I have laid the groundwork for my Star*School Technological University. which will offer classes taught by extra-terrestrial instructors; and eventually consist of a dozen University Cities located aboard my own mothership. These floating antigravity cities will travel all over this planet, as well as to neighbouring planets – docked aboard their mothership – offering students of all ages a superb educational opportunity on these 'stepping stones to the stars'. I am a full Admiral in Ashtar Command; and work closely with the Ascended Masters as an Ambassador General with The Galactic Federations. I am an Avatar of The United States, with a functional 5th dimensional DNA structure.
